

VAL-SAINT-FRANÇOIS SCHOOL / WORK BALANCE PROGRAM

The Val-Saint-François School/Work Balance Program seeks collaboration with employers in establishing workplace practices designed to support the academic success of their student employees. The structures put in place allow students to work part-time within a framework which encourages the pursuit of an education.

Congratulations to the 10 newly certified employers who have joined our group of employer ambassadors for a total of 13 employers in the Val-Saint-François now certified with the School/Work Balance Program.
